Skills Builder Framework

Eight essential skills to succeed in education, work, and life

Download the full framework at www.skillsbuilder.org

Jacobs

Skills Builder Framework

- The Framework is a **progression roadmap of transferable employability skills**. You can use it to start building eight essential skills, which are needed in any kind of job.
- The essential skills are broken down into **16 teachable and measurable steps**.
- The framework believes that it is **beneficial to start to embed the key essential skills from a young age** and let an individual progress and build more confidence as they move in to further education and employment.
- The **essential skills unlock learning** in the classroom, boosting academic outcomes, perseverance and self belief.
- They **halve the likelihood of being out of work**, increase earnings across a lifetime and even boost wellbeing and life satisfaction.
